Authorization for this examiner's amendment was given in a telephone interview with Eric Schneider on 4/19/05.

Cross Reference to Related Applications

This application for patent claims priority of U.S. Provisional Application Ser. No. 60/154,411 filed September 17, 1999, by Schneider, which is hereby incorporated by reference.

The application for patent is also related to co-pending applications and claims the benefit of:

U.S. Patent No. 6,442,549 filed 11/15/99, by Schneider et al; and

U.S. Patent No. 5,987,464 filed 7/25/97, by Schneider, which are hereby incorporated by reference.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claims 53, 62 and 63 among other things teach the limitation "providing notification when a new file is published to a file directory based upon a request that determines a polling interval, polling start time that is earlier than the time of the published file, polling stop time that is later than the time of the published file, publishing interval, volume number, and issue number based upon at least two files in the file directory" further defining the resource access request from a URL and specific file attributes in combination with the dependent claims 55-61, 64-71.

The prior art does not teach the cited limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
